

Операционные системы

Касьянов Даниил Владимирович

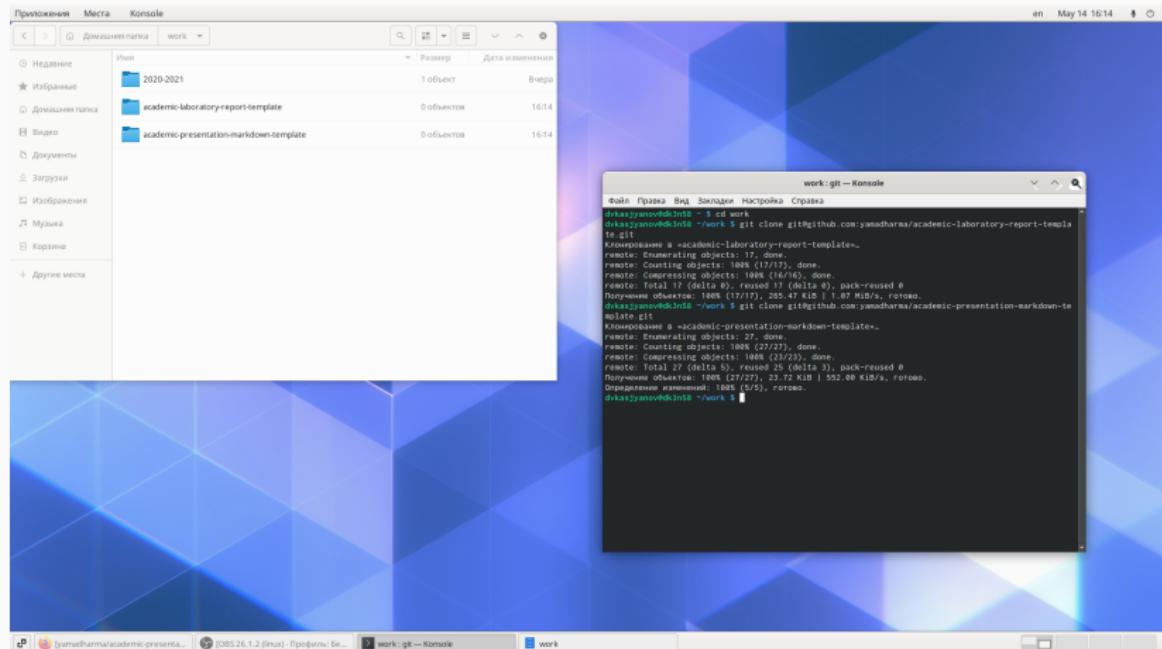

13 мая 2021 год

RUDN University, Moscow, Russian Federation

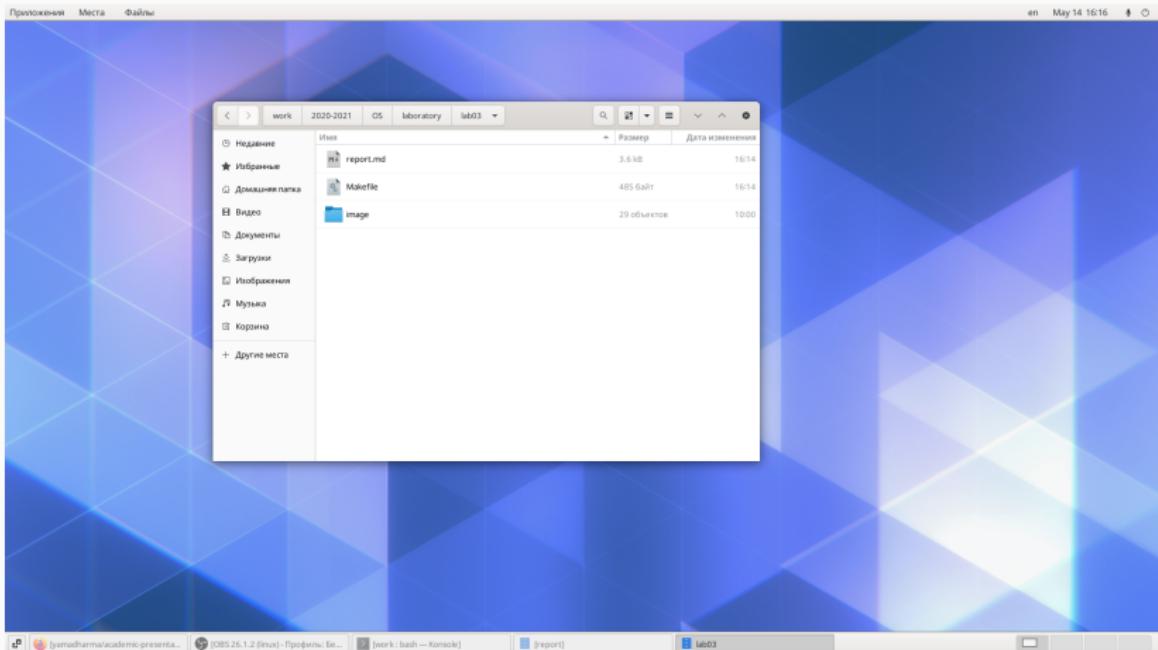

Лабораторная работа №3

Ход работы

Я скопировал репозитории с шаблонами отчёта и презентации.

В рабочей директории создал папку image03 с пронумерованными для удобства скриншотами; переместил в рабочую директорию шаблон лабораторной работы в формате Markdown и Makefile.

С помощью текстового редактора оформил титульный лист, скопировал текст из оформленного отчёта и вставил в шаблон. Исправил все ошибки, появившиеся в процессе копирования.

Используя команду `pandoc README.md -o README.pdf` создал отчёт в формате pdf. Аналогично для отчёта в формате docx.

Сохраняю все локальные изменения и передаю их на репозиторий github.

Проверяю репозиторий

Выводы

Я научился оформлять отчёты с помощью легковесного языка разметки Markdown.

Спасибо за внимание!
